What I can offer you

I can design web and mobile applications that not only look visually appealing but also prioritize the user's needs through the use of design thinking, information architecture, and modern technology. After the prototype is accepted, I collaborate with a team of developers to oversee the entire development process, ensuring a seamless end-to-end experience.

- CREATIVITY & PASSION
- LEADER & TEAMWORK

Language

ENGLISH
IELTS Band Score: 7.0 / 9.0

Experience

TOTAL UI/UX EXPERIENCE 10+ YEARS

WEB DESIGNER (2022 - 2023)

Timata / UAE - Dubai

My portfolio included websites such as https://shehana.ae/, https://enata.com/, https://horizon-geosciences.com/, https://www.mozahalmaktoum.com/ and https://timata.com/. I successfully designed and presented these prototypes that received positive feedback from clients'. With meticulous attention to detail, I developed these sites and published live while ensuring that they are optimized for optimal functionality, speed and relevance.

SENIOR FRONT-END ENGINEER (2018 - 2022)

Monotch / Netherlands

As a skilled product designer, I've created engaging user interfaces and seamless responsive websites and mobile applications. As a Team Lead, I collaborated with the CTO in the Netherlands to design business applications that met both user and business needs. I created and presented prototypes that received positive feedback from stakeholders. To ensure cross-browser compatibility, I designed products to work seamlessly across all major browsers.

Additionally, as a front-end engineer, working with a team of local and overseas software engineers, I coded and managed end-to-end projects throughout their lifecycle, resulting in on-time delivery within clients' budgets and requirements. I also conducted thorough user testing before deploying live websites.

SENIOR UI/UX ENGINEER (2013 - 2018)

Adelanka / UK

With a focus on business goals, I designed and developed web and mobile applications with exceptional UI/UX. As a Team Lead, I managed a team of UI designers, coordinating closely with software engineers and quality assurance engineers to integrate systems seamlessly.

Working directly with the CEO based in London, I ensured that business applications were designed according to client requirements, and presented prototypes that satisfied their needs. Before deploying live websites, I conducted comprehensive user testing to ensure optimal user experience in multiple platforms.

Additionally, I supported the HR and marketing departments by providing daily design and graphic operations.

OTHER EXPERIENCES & ROLES:

SYSTEMS SUPPORT (2012), UI ENGINEER (2011), IMPLEMENTATION & SUPPORT ENGINEER (2011), E-BUSINESS DEVELOPMENT EXECUTIVE (2010), TECHNICAL ASSISTANT (2008)

Recommendations

Jeroen F
Product Owner | Netherlands

"Isham is a very skilled, friendly and cooperative UX/UI developer. During my time at Monotch I really appreciated Isham's flexibility, motivation and input. Even though our countries are quite different in terms of communication methods, it was a pleasure to work together. Isham maintains a high quality bar for his work, is reliable when it comes to" tasks and appointments and is a great team player. I can highly recommend him."

Shiran De Silva
Principal Product Owner | Vietnam

"As my batch mate from the start during university time, following the same course and participating in several group projects, I have had the privilege of working closely with Isham...

In those memorable and fun years he has been a true close friend and colleague, but leaving aside our friendship I've grown to notice that he is a simple and hard working individual with a broad and diverse set of skills and will always put his focus on getting the work done in what ever tough conditions he has been faced with...

His charismatic personality blended with his knowledge and work experience makes him a good team player and thereby I would not think twice in recommending him for any opportunity he endeavors and I wish him all the best in future success for his career..."

Menaka Wanninayake
Talent Consulting Lead | Sri Lanka

"I have worked with Isham for nearly 3 years and when I go to Isham with the requirement, I was always coming back with a very satisfied outcome. A very professional and a reliable resource and very easy to work with. When he is around, the work place is very joyful and he is definitely a great asset to any company. Wishing him a great success throughout his journey. "

Seyed Mowlana
Senior Consultant at Microsoft | USA

"Isham is an amazingly talented individual with whom I spent much of my university days with. Being a part of my close knitted group of friends, I've seen his commitment to work and his ability to produce some of the best designs and works of digital art. I have been truly amazed at his skill in graphic designing in particular. Back in our days at college, he was always known as a very focused and hardworking student who'd give a 100% to his work in getting a job done. His personable character equipped with professionalism makes him an ideal candidate for any team as he truly is an amazing asset to any organization. I wish him all the very best."
