CONFIDENTIAL PROJECTS WHICH CANNOT BE PUBLISHED PUBLICLY

These are the projects I did where I cannot disclose to the public but uploaded the images to my private server so only people with the links have access.

Monotch – Mass Portal

System for car parking, service provider and resource provider management.
Direct Contribution: Design and developed (coded with a team) the system which is currently used live in Netherlands.

https://ishamsally.com/private/massrp/

Monotch – Citywide Parking

System for customers to book their parking.
Direct Contribution: Design and developed (coded with a team) the system which is currently used live in Netherlands.

https://ishamsally.com/private/parking/

Monotch – Boat Tour

System for customers to book their parking and boat tours.
Direct Contribution: Design

https://ishamsally.com/private/boat/

Monotch – Violation system

System for police or violations officer to capture offences
Direct Contribution: Design

https://ishamsally.com/private/violation/

Note: there are more projects I did that are company properties which I no longer have access to like banking, state sectors, hospitals etc… these kinds of projects I have signed an agreement not to disclose

or keep any designs with me personally. I also have Invision, Adobe XD, Figma designs that can be disclosed during the interview on screen sharing basis.

Thank you,

Isham Sally
